We have been with ATG for a little over a year now, I was dreading making a change in phone systems. But this was the smoothest and quickest transition we ever had. We have two locations and it is wonderful to be able to transfer calls back and forth, instead of making customer call another number. With any transition there are glitches that occur, the support from ATG has been great, the installation crew were professional, and Nick has been great at answering all our questions. I Would definitely recommend Applied Technology Group. If you have any questions, feel free to give me a call.

Tina Doctor

A handwritten signature in black ink, appearing to read "Tina Doctor", written over a light blue horizontal line.
