

To Whom it May Concern,

The Fort Wayne Komet Hockey Club transitioned to a brand-new phone system during an extremely busy time for us. Applied Technology Group was absolutely fantastic in helping us set-up this new system in a timely manner, and then training us, again in a quick manner, to make it extremely easy and practical for our staff.

We enjoy the services provided to us that our last system did not. During the Covid times, we held a lot of meetings via the 'conference' option on the phone systems. It allowed for everyone to remain in their own offices, while communicating our usual meeting topics. Even better than the services the phone systems provide us is the service and care that comes from ATG. From our rep to our installers, they were very helpful and are available at anytime if we have questions.

The Fort Wayne Komets would recommend ATG to any company looking for these type of needs.

Sincerely,

A handwritten signature in black ink, appearing to read "Scott A. Sproat". The signature is fluid and cursive, with a long horizontal line extending to the right.

Scott A. Sproat  
EVP/CRO/CMO/Co-Owner
